

BrickWal® – Thin Brick Panel Systems

- Real thin brick integrated into prefabricated panels
- Factory-controlled quality and alignment
- Reduced install time vs. traditional brick

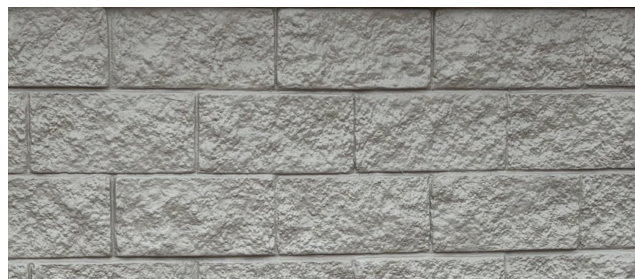

EnduraWal® – Stucco & EIFS-Style Panel Systems

- Manufactured wall panels with integrated finishes
- Consistent texture and color across multiple locations
- Faster installation than traditional site-applied stucco

CastWal® – Architectural Cast Wall Systems

- Factory-produced cast wall panels with exceptional dimensional control
- Reduced field labor compared to traditional masonry
- Predictable schedules, repeatable results

Cast Foundation Stone

- Designed for foundation and wainscot applications
- Consistent sizing and finish
- Improved durability vs jobsite-built solutions

WalStone® – Aggregate Panel Systems

- Panelized stone system designed for rapid installation
- Factory-controlled layouts for consistent coursing and alignment
- Reduced labor compared to traditional or loose-laid stone

Manufactured Stone Veneer Options

- Cultured Stone®
- Eldorado Stone®
- Versetta Stone®
- Texas Stone Designs®
